VETOPROPAC.COM

ROGER BROUARD, FOUNDER

VETO PRO PAC'S DNA

INTENTION

Function oriented design with feature rich solutions for smarter work performance

MATERIALS

Professional-grade specifications built with time-tested materials

WORKMANSHIP

Well-made, quality infused products, hand made by skilled craftspeople

APPEARANCE

Timeless, rugged aesthetic, developed for endurance and dependability

VETO PRO PAC'S QUALITY DIFFERENCE

YKK INTERLOCKING ZIPPERS

Premium luggage grade coils, engineered for longevity in the field

RUGGED CONSTRUCTION

Industrial strength materials, reinforced construction, nylon stitching & marine grade rivets

REINFORCED IN & OUT

Interior & exterior pockets constructed using multiple layers of binding tape and webbing for structure and durability

STABLE WATERPROOF BASE

3mm thick polypropylene base offers wear and moisture protection during everyday conditions

ERGONOMIC DESIGN

Comfortable, over-molded rubber grip offering positive hand control and connection

MAXIMIZED STORAGE CAPACITY

Patented center panel for optimized weight distribution while supporting vertical tiered pockets keeping all contents in view

ADAPTABILITY

Detachable & customizable features can be made to work the way you do (V-SWAP is only available on certain V-SWAP labeled bags)

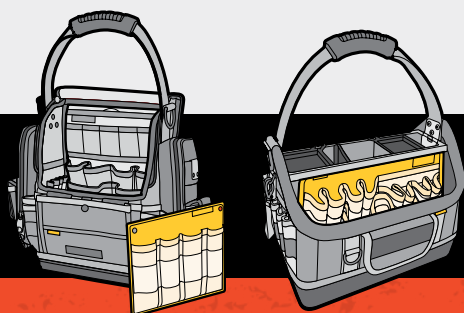

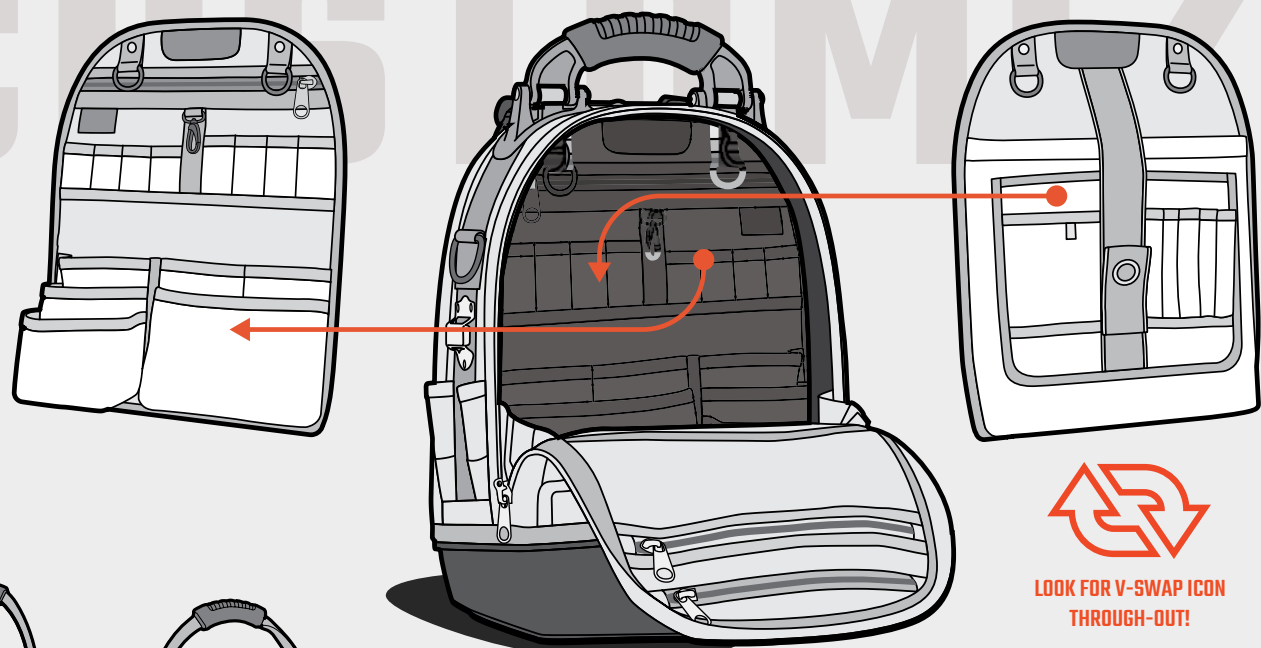

RECONFIGURE & CUSTOMIZE QUICKLY

Veto Pro Pac's proprietary V-SWAP system of interchangeable panels, including a variety of tool, meter, laptop, bulk storage and others, enables quick customization for the needed tools, gear and equipment. Available on the Blackout and Build-out products, the TECH OT-LC, TP-XXL, OC Cases, Wheelers, as well as a number of other products.

CUSTOMIZE

Each bag that offers V-SWAP panels has its own assortment of panel options. See options on the product pages within this catalog.

VIEW THE EXPANDING SELECTION OF V-SWAP AT WWW.VETOPROPAC.COM/V-SWAP

BLACKOUT OR BLACKOUT BUILD-OUT

WHEN YOU SEE THIS LOGO ON A PRODUCT PAGE IN THIS CATALOG, THAT PRODUCT IS AVAILABLE IN A BUILD-OUT VERSION

WHAT'S THE DIFFERENCE BETWEEN A BLACKOUT AND A BLACKOUT/BUILDOUT BAG?

The "Blackout" version of a "Blackout Build-out" bag comes with specified panels already inside the bag, and you may purchase additional panels. The Build-out version allows you to pick any two panels you would like to start out with in the bag at the time of purchase. For either the Blackout or Blackout Build-out bags, you can purchase additional panels at any time. There are many panel options and configurations for maximum flexibility to handle any job.

DENNIS SULIO

GOOD TOOLS MAKE A SKILLED CRAFTSMAN BETTER. THE BAG HE CARRIES THOSE TOOLS WILL MAKE HIM GREATER.

**DENNIS SULIO | MUNGI TOWN GU-DENVER, CO, USA
FIELD SERVICE TECHNICIAN**

I am a Traffic Signal Technician. I was a Telecommunications Technician doing OSP & ISP work for about 5 years prior to joining the U.S Army as a Cannon Crew Member. After serving 3 years, I decided to jump back into the Telecom field as a locator on a Bore Crew. Finally after a year I got bored and wanted to try something new. I started as an Equipment Operator for the City & County of Denver and was promoted 3 months later to a Traffic Signal Technician. Since then I fell in love with Traffic Signal Infrastructure & Technology. The thing I love most about my trade is Troubleshooting faulty Intersections and Building Intersections from the ground up. The major thing I love about my trade is ensuring the Safety of my community through the perfection of my work.

Featured product: EDC PAC LCB OLIVE

LBC-10

13.5" H X 15" W X 12" D | **WT: 7 LBS** | **VOL: 700 IN³** | **MAX PAYLOAD: 25 LBS**
 (34cm H X 38cm WL X 30.5cm D) (3.2 KG) (11.5 L) (11 KG)

The LBC-10 is a hybrid lunchbox and cooler that can store up to 12 16 oz/473 ml beverage cans, 12 12 oz long-neck bottles, or 18 12 oz cans. This bag features a unique air-tight lid that is easily opened and quickly secured by a magnetic latching system, and a rubber waterproof base to prevent sliding. Inside, the bag has an optional snack tray, and also a removable injection-molded liner for easy cleaning. It also includes a zippered exterior pocket, a removable carrying handle, and an optional shoulder strap.

LBC-15

16" H X 17" W X 13" D | **WT: 8.5 LBS** | **VOL: 1007 IN³** | **MAX PAYLOAD: 30 LBS**
 (41cm H X 43 WL X 33cm D) (4 KG) (16.5 L) (14 KG)

The larger LBC-15 lunchbox-sized cooler provides an additional 305in3/5 liters of non-insulated storage within the lid. Unzip either side of the lid to slide out an injection molded plastic storage drawer; or remove completely to use as an eating tray. Holds up to 12 - 12oz long neck bottles, 12 - 16oz cans, or 16 - 12oz cans. The LBC-15 also includes 6 additional exterior everyday carry storage pockets around the perimeter of the bag, including a pocket perfect for an eReader or small tablet computer. Available in Carbon and Olive Green.

VPP10070

TECH PAC

19.5" H X 13" W X 10" D | **WT: 10 LBS** | **VOL: 1550 IN³** | **MAX PAYLOAD: 50 LBS**
 (49.5cm H X 33cm W X 25cm D) (4.5 KG) (25 L) (23 KG)

The TECH PAC is the first backpack tool bag designed specifically for professional tradesmen who need to climb ladders or walk long distances. The bag includes Veto's patented center panel, rugged construction, and stabilizing injection molded waterproof base to keep tools dry even in the worst conditions. With 46 pockets inside and out, the TECH PAC offers ample room for hand tools, meters, parts boxes, cordless drills and impact drivers, as well as other bulkier items such as manifold gauges, hoses, cable wires and even a 7" X 10" pocket for a tablet or small laptop. With a thermo-formed EVA padded back panel, padded load-displacing adjustable shoulder strap system, and an ergonomic TPR rubber grip, this favorite is also made for comfort.

SP-MC  

12" H X 9" W X 7" D | **WT: 2.9 LBS** | **VOL: 265 IN³** | **MAX PAYLOAD: 15 LBS**
 (30.5cm H X 23cm W X 18cm D) | (1.3 KG) | (4.3 L) | (7 KG)

The SP-MC is a compact closed-top tool pouch accessible via a flap that opens from the top down. The flap features a zippered 2-way access pocket that can be reached from either the outside or inside of the bag. The SP-MC includes two external removable side pouches—one functions as a tool pouch and the other as a drill holster. The removable tool pouch has two main pockets sized for a screwdriver or pliers, a pair of thru-pockets, pencil pockets, a stainless steel tape measure clip, and an electrical tape strap. The removable drill holster can store any size drill from 12V to 18V and features 4 drill bit pockets, a stainless steel tape measure clip, and an optional lanyard can be fastened across the drill for additional security. The lanyard can be removed or pushed down if not needed. These removable side pouches can be clipped on your waist belt or trouser pocket making these ideal for working on a ladder. The SP-MC also features our proprietary V-SWAP™ system of interchangeable panels. See included panel below and additional panels via the QR code.

HOSE HAULER BLACKOUT

COMING SOON

17" H X 17" W X 5" D (43cm H X 43cm W X 13cm D)

WT: 4.5 LBS (2 KG)

VOL: 3090 IN³ (50.5 L)

MAX PAYLOAD: 15 LBS (7 KG)

The HOSE HAULER BLACKOUT is a "blacked-out" version of the existing HOSE HAULER with a few added features. It includes a "suitcase-like" expansion feature that increases internal capacity, allowing you to fit more hoses, store a refrigerant scale with your hoses and gear, or hold up to 100 feet of extension cord. Inside, a removable security strap keeps hoses or extension cords fastened and prevents them from unraveling. The bag also features three removable zippered pouches—two corner pouches and one center pouch—for storing tools and equipment. The flap includes a dual-zippered 2-in-1 pocket that opens from the top or bottom. On the outside, there is an added hanging hook for mounting the bag and a shoulder strap for easy transport. This is the ultimate bag for hoses, extension cords, and recovery or evacuation kits.

INTERNAL CAPACITY EXPANDS BY 50%

VPP10801

HOSE HAULER

17" H X 17" W X 5" D (43cm H X 43cm W X 13cm D)

WT: 4 LBS (1.8 KG)

VOL: 3090 IN³ (50.5 L)

MAX PAYLOAD: 15 LBS (7 KG)

The HOSE HAULER is a versatile storage solution that is specifically designed with HVAC technicians and plumbers in mind. It can store vacuum pump hoses, micron gauges, valve core removers, adapters, a bottle of vacuum pump oil and basic hand tools needed for performing an evacuation on an HVAC system. The HOSE HAULER features a removable interior pouch and 2 removable storage dividers, allowing for customization of the interior storage layout. The bag also features a water/oil resistant interior for easy clean up.

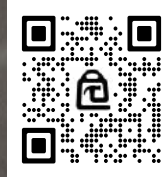

BE THE CHANGE THAT YOU WISH TO SEE IN THE WORLD.

KORNELIA DZIEWICKA | POLAND
ELECTRICIAN

When I first came to England, I was looking for work and ended up getting a job for an electrical firm in London. I was originally supposed to be working in the office but decided to try going on the tools for a day and absolutely loved it. I felt like I was getting the variety and experience I never really had at any other job previously. I really enjoy being an electrician, being hands on and problem solving. I get such a sense of satisfaction when I go to someone's house where they have a problem and I am able to use my experience and logic to understand what's causing the problem and resolving it for them.

POLAND

ADAM NASSER

I LOVE WHAT I DO.

**ADAM NASSER | LOS ANGELES, CA
HVAC TECH**

In November 2017, I migrated to the Los Angeles California with \$300-\$500 in my pocket, I was never interested in going to traditional college and have a normal behind the desk job. I've always wanted to be a car mechanic but my brother in law who's been here for over 15 years did not recommend it since he owns a mechanic shop. He then introduced me to his good friend who has his own HVAC business. I went to a trade school and graduated and got my first job as a commercial HVAC apprentice but I didn't like it and then I tried residential and I fell in love with it because I get to drive to different areas every day, and interact with different kind of people and learn different cultures. At the end of the day, there's no better feeling than fixing someone's AC or Heater and you look like a hero to them."

It includes a webbing strip for short driver tips, a stainless steel badge for a tape measure, and a lanyard can be fastened across the drill for additional security. The holster attaches via a belt pass-through or an integrated wire-formed clip.

VPP10734

DH2X

11.5" H X 6" W X 3" D (29cm H X 15cm W X 7.5cm D)

WT: .6 LBS (.3 KG)

MAX PAYLOAD: 10 LBS (4.5 KG)

The DH2X is a large drill holster featuring six exterior pockets for bits, extensions, and nut drivers. It includes a webbing strip for short driver tips, a stainless steel badge for a tape measure, and a lanyard can be fastened across the drill for additional security. The holster attaches via a belt pass-through or an integrated wire-formed clip. Its unique bottom flap protects tools or stores spare parts and can be left open for long bits and extensions, providing additional protection from sharp tips.

VPP10735

DP3

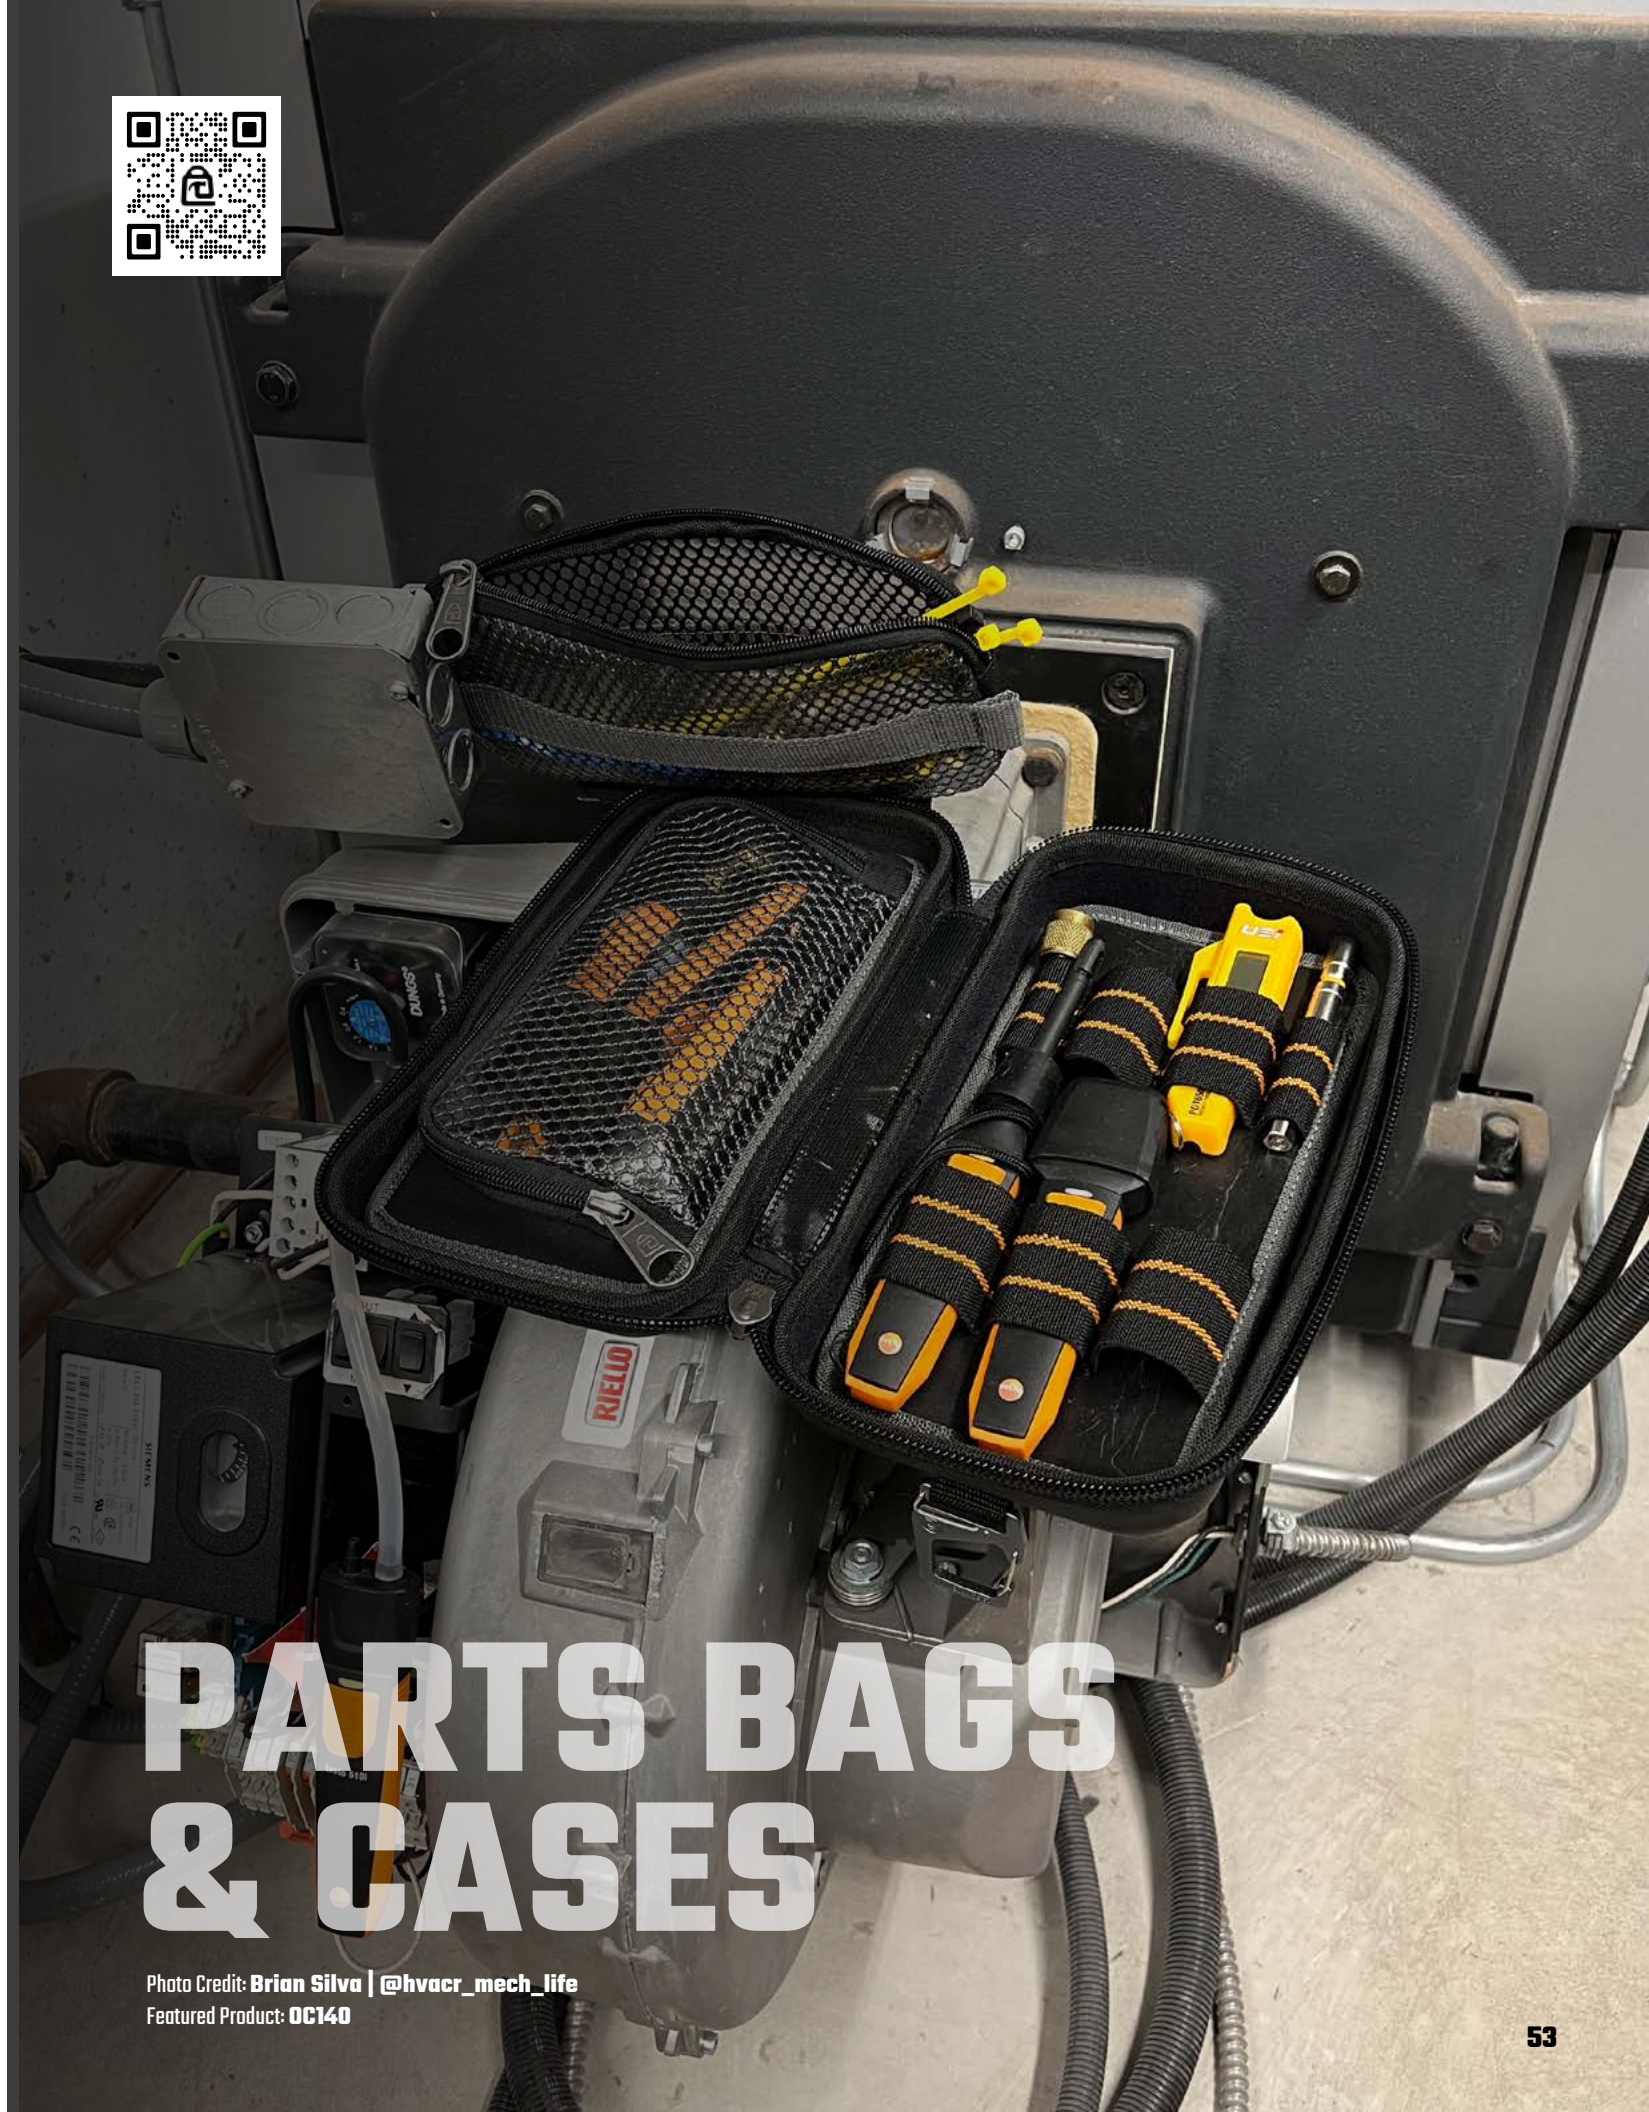

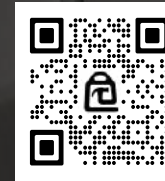

12" H X 8.5" W X 6.5" D (30.5cm H X 22cm W X 16.5cm D)

WT: 1.8 LBS (.8 KG)

VOL: 132 IN³ (2.2 L)

MAX PAYLOAD: 10 LBS (4.5 KG)

The DP3 is a versatile pouch that serves as both a drill holster and tool pouch. With 17 pockets, it holds a variety of tools and fits most drill sizes. It features a removable and repositionable belt clip (RBC) attached to the back molle strap, allowing attachment to belts or larger tool bags, and a lanyard can be fastened across the drill for additional security. The soft-sided, synthetic rubber-lined base provides stability. Ideal for lightweight travel, quick grabs, or extra storage.

A string of magnets added along the back of this pair of 8"/20cm long parts bags adds a surprising amount of functionality. Not only do the magnets enable the pair to secure to one another, each magnetized pouch can attach to the ferrous mounting point integrated in the TP-XXL, TP-XD Blackout & TP-XL. When on the go the pouches can secure themselves to a substructure keeping small parts, test leads or precision tools within hand's reach. The magnets can also temporarily keep the screws from a removed shroud in place.

EXTRA CLEARANCE FOR TALL TOOLS

VPP10087

XXL-F

10" H X 26" W X 10" D | WT: 10 LBS | VOL: 1485 IN³ | MAX PAYLOAD: 50 LBS
 (25cm H X 66cm W X 25cm D) (4.5 KG) (24 L) (23 KG)

The XXL-F is a soft-sided version of the classic "carpenter's wooden tool box." The XXL-F can store larger and longer tools (hand saws, framing squares, pry bars, etc.) in the bulk storage side and smaller hand tools on opposite side in the vertically tiered pockets. This bag holds it all! Now you can pack that serrated hand saw sidekick, or a level, or a pry bar, or anything else that requires a little more horizontal territory. The XXL-F handles longer tools while still providing vertical storage in the form of 54 pockets that can accommodate about 80 tools of varying sizes.

VPP10039

OT-LC

13" H X 15" W X 11.5" D | WT: 8 LBS | VOL: 1100 IN³ | MAX PAYLOAD: 35 LBS
 (33cm H X 38cm W X 29cm D) (3.5 KG) (18 L) (16 KG)

This compact version of the OT-XL is an open-top tool bag that holds up to 75 tools and gear like cordless drills, extension cords, caulk guns and anything else that fits. This bag has a removable vertical pocket panel that can provide additional space that can be reoriented to accommodate multiple tools for a variety of tasks. A compact grab-and-go workhorse.

CT-XL

16" H X 16.5" W X 9.5" D (40.5cm H X 42cm W X 24cm D)

WT: 4 LBS (2 KG)

VOL: 2650 IN³ (43.5 L)

MAX PAYLOAD: 50 LBS (23 KG)

The CT-XL Cargo Tote is designed to stand up to the rigors of daily use, and features 1800 Denier Body Fabric, leather handle grips and Veto's signature 3mm thick polypropylene waterproof base. Our patent pending design keeps this cargo tote bag standing upright and open at all times for easy access, a feature not seen on other totes. With 40% more cargo storage capacity than the CT-LC, it offers the ultimate bulk storage and carrying capacity for larger tools and accessories such as hammer drills, extension cords, boots, sawzalls, air hoses or even your pet lab. An optional shoulder strap is sold separately.

VPP10004

CT-LC

14.5" H X 13.5" W X 9.5" D (37cm H X 34.5cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

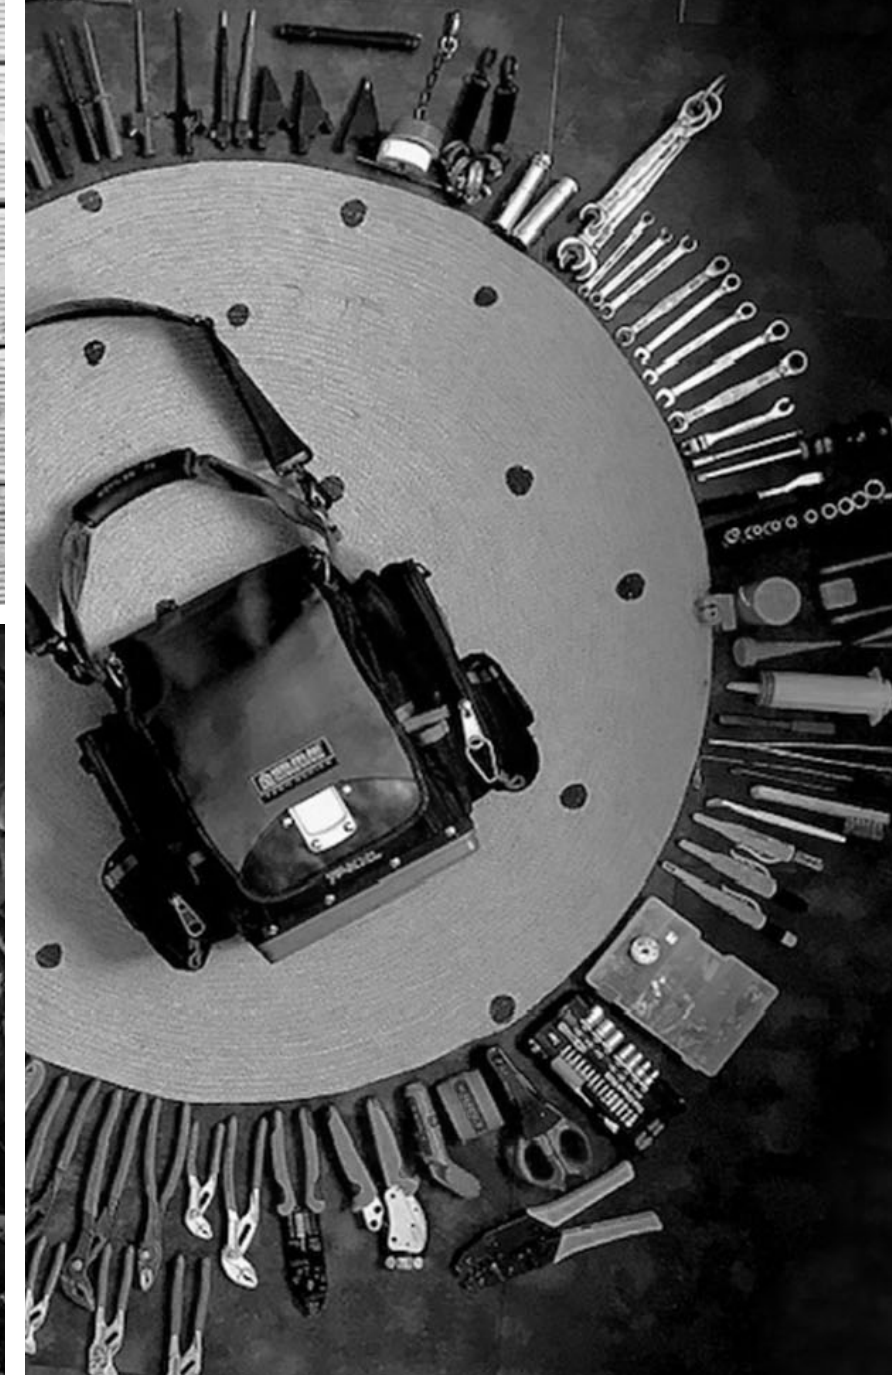

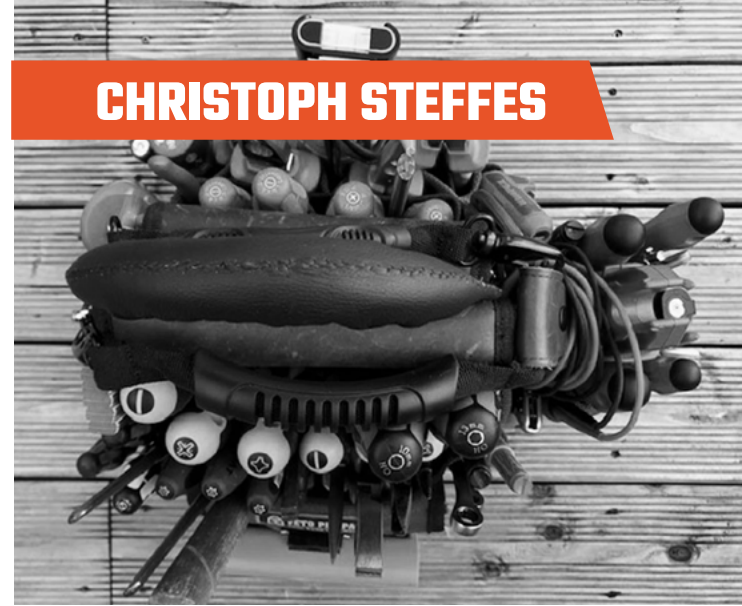

VOL: 1837 IN³ (30 L)

MAX PAYLOAD: 45 LBS (20 KG)

This bag offers bulk carrying capacity with a rugged tote design. The CT-LC allows quick and easy carrying/storage of bulk items from the truck to the job site or anywhere in between. Veto's Cargo Totes feature 1800 Denier Body Fabric, leather handle grips and Veto's signature 3mm thick polypropylene waterproof base. The CT-LC features 4 tiered pockets, and our patent pending design keeps the Cargo Totes standing upright and open at all times; a feature not seen on other tote products for tool storage. An optional shoulder strap is sold separately.

LOVE WHAT YOU DO.

CHRISTOPH STEFFES | TRIER, GERMANY
MULTI-FACETED ELECTRICIAN & PLUMBER

I started my apprenticeship in the high voltage sector for an energy supplier. Then, I studied bachelor of Electrical Engineering Automation and Power, now self employed - 3 employees. I took over my company I was working for in 2020, established in 1977. We sell, repair and maintain all commercial and home kitchen equipment. A multi-faceted work on electrical, plumbing, wood and metal sides of the trades. I like the different challenges in many different ways.

CONTRACTOR SERIES

BELTS, APRONS & ORGANIZERS

Photo Credit: **Jake Hamm**

Featured product: **BUILDERS BELT & BELT LIFTERS [BT-LT]**

BUILDERS BELT

LG ADJUSTMENT RANGE: 32" - 46" (81cm - 117cm) VPP10475

XL ADJUSTMENT RANGE: 41" - 58" (104cm - 147cm) VPP10868

The Builders Belt is for carpenters or other tradesmen that need to carry tools and fasteners around their waist. Adjusting from a 32" up to a 46" waist, it includes an adjustable padded belt, a separate Hammer Holder, Fastener Pouch and Tool Pouch. The pouches can be swapped out and worn left or right depending on the dominant hand need. A set of suspenders we call "Belt Lifters" (sold separately) is also available and can be attached and worn over the shoulders to help carry the load off the waist and onto the shoulders for more comfort and less waist fatigue.

BELT LIFTERS (BT-LT)

VPP10476

The Belt Lifters (suspenders), worn on the shoulders, provide a padded harness for the shoulders, with front and back adjustable straps clipped to 4 leather locking straps. Through the leather straps, the harness easily connects to the loaded tool belt, distributing weight off one's hips, sharing the load across the shoulders. It also comes with an adjustable chest strap and 2 metal tape measure clips that are conveniently chest-located on either side of the padded harness for quick and easy tape measure access.

HAMMER HOLDER (HH1)

VPP10471

Our Hammer Holder with belt loop has a stamped metal hammer loop, riveted to tanned cow leather with an additional stitched and riveted leather tool loop, for convenient hammer and tool carrying capability.

VPP10055

TA-XL

22.5" H X 22" W X 3" D (57cm H X 56cm W X 7.5cm D)

WT: 2.5 LBS (1 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-XL Tool Apron is a full chest and waist apron with a cluster of chest pockets and waist pockets for tools and fastenings. With left and right hammer loops and drill loops in the back, plus a double layer of body fabric for fastening pockets, the TA-XL offers extra tool and fastening storage in a tool apron configuration. For those that do not want the weight of a tool belt around their waist and prefer a shop apron configuration supported from the shoulders.

VPP10053

TA-WB

10" H X 22.5" W X 3" D (25.5cm H X 57cm W X 7.5cm D)

WT: 1.5 LBS (.5 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-WB Waist Tool Apron comes with left and right hammer loops, 2 fastener pouches, a tape measure clip and pocket, and multiple tool, pencil, pen and bit pockets along with a built-in "Gut Bumper" on the top edge. It works well when a minimum amount of tools are required on and off the job. It adjusts for different waist sizes.

VPP10017

KP-XL

32" H X 17" W X 3" D | **WT: 3.5 LBS** | **MAX PAYLOAD: 25 LBS**

(81cm H X 43cm W X 7.5cm D)

(1.5 KG)

(11 KG)

The KP-XL is a vertical pocket panel for tool storage that can be secured to a hinged vehicle door, cage wall or shop wall to organize and store overflow or additional tools for quick and easy access.

TR-LC **COMING SOON**

29" H X 14.5" W | **WT: 4.4 LBS** | **MAX PAYLOAD: 35 LBS**
 (74CM H X 37CM W) (2 KG) (16 KG)

The TR-LC is a highly functional, large modular tool roll designed for job sites and roadside repairs. It features a mountable design with a hanging hook to keep it off the ground and out of the mud. This large tool roll is easily carried with an ergonomic grip handle and a shoulder strap when rolled up, and two secondary handles for quick transport when unrolled. The TR-LC includes five removable storage pouches and rolls: three multi-colored large bulk storage pouches ("RP-LCs") designed to contain items while hanging; a wrench roll ("WR-LC") for a full wrench set, and a socket roll ("SR-LC") for a full socket set. Both the WR-LC and SR-LC also function as standalone rolls with external zippered pockets and carrying handles. The RP-LCs, WR-LC, and SR-LC utilize heavy duty Velcro to ensure a secure attachment and easy detachment on the inside of the TR-LC so that you can grab them and go as you need. Additional WR-LCs, SR-LCs, and RP-LCs can be purchased separately to customize the layout.

VPP10877

WR-LC **COMING SOON**

16.5" H X 13" W | **WT: 1.1 LBS** | **MAX PAYLOAD: 10 LBS**
 (42CM H X 33CM W) (.5 KG) (4.5 KG)

The WR-LC is a compact tool roll designed to store a full set of wrenches. It features 10 pockets of various sizes, elastic loops in the center for a secure hold, and a large flap that folds inward to keep items from falling out. Additional features include an external zippered compartment for small items, a carrying handle, and Velcro loop for attaching to the TR-LC. The WR-LC functions as a standalone tool roll and attaches to the TR-LC.

VPP10878

SR-LC **COMING SOON**

16.5" H X 13" W | **WT: .9 LBS** | **MAX PAYLOAD: 10 LBS**
 (42CM H X 33CM W) (.4 KG) (4.5 KG)

The SR-LC is a compact tool roll designed to store a full socket set, including socket wrenches and extensions. It features two rows of 15 elastic loops of varying sizes to hold sockets, with tubing rails to keep them secure, and two center rows of 5 elastic loops for wrenches and extensions. The side flaps fold inward to prevent items from falling out. Additional features include an external zippered compartment for small items, a carrying handle, and a Velcro loop for attachment to the TR-LC. This socket roll can accommodate both Metric (5/32in up to 3/4in) and SAE (4mm up to 17mm) sockets. The SR-LC functions as a standalone tool roll and attaches to the TR-LC.

VPP10879

RP-LC [2-PAC] **COMING SOON**

4" H X 13" W X 2.5" D | **WT: .5 LBS** | **MAX PAYLOAD: 5 LBS**
 (10CM H X 33CM W X 6.3CM D) (.2 KG) (2.3 KG)

The RP-LC [2-PAC] is a pack of 2 zippered, semi-transparent bulk storage pouches with colored tabs for easy identification and differentiation so that you can quickly identify which pouch is which and grab what you need. These pouches feature 2 external loops for utilizing a carabiner (not included) to attach to larger bags and external Velcro loop for compatibility with the TR-LC. This 2 pack includes one dark gray RP-LC and one light gray RP-LC.

VOL: 800 IN³ (13 L)

MAX PAYLOAD: 35 LBS (16 KG)

The MB-MCT is a compact service technician tool bag with added height for long shank tools. It is equivalent to the TECH MCT tool bag, upgraded with polyester canvas, outside pockets, light gray interior for better visibility and with a non-marring TPR rubber base. The bag is designed for tradesmen and technicians to avoid scratching floors or denting door jambs, and boaters or marine technicians who require a compact tool bag that stores hand tools, drills, meters and long shank tools with a protective bottom.

RIGGERS BAG

13" H X 11.5" W X 7" D (33cm H X 29cm W X 17cm D)

WT: 6 LBS (2.5 KG)

VOL: 910 IN³ (15 L)

MAX PAYLOAD: 35 LBS (16 KG)

The RIGGERS BAG, with its non-marring TPR rubber base, is designed for professional boat builders to store, carry, and access rigging tools and gear on the hard or aloft. The bag also works for professionals in other trades, including electricians, to store hand tools and other accessories.

MB-CTXL

16" H X 16.5" W X 9.5" D (40.5cm H X 42cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

VOL: 3050 IN³ (50 L)

MAX PAYLOAD: 50 LBS (23 KG)

The MB-CTXL is an open-top tool tote bag with a zip-up closure option for secure tool storage and one-handed gear hauling to and from the boat...or wherever needed by tradesmen. The MB-CTXL also offers interior pockets and a non-marring TPR rubberized base to avoid scratching floors or decks. Great for outdoor weekend use as well!

MB-TTXL VPP10033

13" H X 16.5" W X 9" D (33cm H X 42cm W X 23cm D)

WT: 7.5 LBS (3.5 KG)

VOL: 1870 IN³ (30.5 L)

MAX PAYLOAD: 45 LBS (20 KG)

The MB-TTXL is designed for boat builders, general contractors and tradespeople that need the protection of a non-marring bottom and maximum tool storage in a compact configuration. This bag also has removable interior pocket panels for additional bulk storage capacity and comes with a padded shoulder strap for hands-free carry.

JUSTIN

MAKE MEMORIES NOT DREAMS.

JUSTIN | SYDNEY, N.S.W, AUSTRALIA
HVACR TECH

"I've been in the HVACR industry for 15 years. The first 4 years of my trade I was working in the domestic scene and when I came out of my apprenticeship, I went into Commercial/ Industrial HVACR. I absolutely love this trade and the variety of work is awesome."

FLEET SALES

Promote your company's name and brand and enhance the pride and professionalism of your employees with our personalization programs. Your employee's Veto Pro Pac tool bag is the first "tool" that a customer sees. A high quality and organized tool bag can communicate a powerful statement to your customers about how much your employee cares about their job. Consider reinforcing your company's brand message of professionalism and quality by affixing your logo to a best-in-class Veto Pro Pac tool bag. Choose from custom patches, ID tags, custom embroidery or even custom colored tool bags (300-unit minimum order quantity). Visit our website to see a complete list of eligible bags or contact sales@vetopropac.com to get started!

EMPLOYEE REWARD

Happy employees are more productive employees. As a professional organization that prides itself on doing high quality work for your customers, employees are your most important assets. The fact is that organizations that give regular thanks to their employees for outstanding service far outperform companies that do not proactively recognize employee efforts. Veto Pro Pac tool bags are a great way to say thank you. Reward your employees with a tool bag that can make them better organized and more efficient while improving the bottom line for your business.
